Life bears such recollections, Such changes on its wings, Such heautiful affections, Buch black and baneful things.

That though fond hope would try it,
For future joy and pain,
Who that has hurried by it,
Would try the past again?

From the Washington Globe, Feb. 16. DEPARTMENT OF STATE.

The following account of Graham Island is derived from the "Malta Government Gazelle" transmitted to the Department of State by the Consul of United States at Mal-

Sicily. On the 19th August we got sight of Grahain Island, in the afternoon; it is about two pounds weight, thrown twenty seven miles from Sciacca on the South them coast of Sicily, lat. 37 degrees 11. Notice of combustion.

Is extreme melody revived them with determined the south them coast of Sicily, lat. 37 degrees 11. Notice of combustion. there coast of Sicily, lat. 37 degrees 11. N. long, 22 deg. 44 E. It appeared two hummocks, united by a lower neck of land; and terra puzzolana, no punice stone, no shells or sently the voice ceased, and on passing the from the southern extremity emitted a column other marine remains, usually found at Etna short entry leading to the front door, they of snoke or vapor of uncertain density and and Vesavius inagnitude. On the 20th, after diligently. Around the Island, where Neptune makes working to windward all night, we approaching to windward all night, we approaching the side of the side ed the island considerably; and the breeze springing up favourable from the S. E. we were enabled to heave to within one mile dis-

On our approach to the Island, we observed immense shoals of perpoises, and multi-tudes of sea fowl, chiefly gulls, attracted, no

d desolation.

At 10 A. M. the boats were lowered down and manned; and, in pursuance of previous-ly concerted arrangements with the Com-mander-in-Chief, all Officers impelled by curivsity or science, desirous of witnessing the menon, took their places in them ac-

We pushed off from the ship, made sal, and landed, in a little bay on the N. E. side of this sombre, lonely Isle. A boat from the St. Vincent preceded us a few yards, and the bowman, an Officer, prepared to be first ashore, teached the ground with the boat-hook laid his weight upon it, pushed it down the sc cond time firmly, with a kind of apparent misgiving of terrestial stability, and jumped

We were all on shore in an instant, scam pering up the hill to the flag staff, through a dense, oppressive vapour of Carburetted hy-

The flug staff is on the highest point of the bird's eye view of the wonderful scene.

tre, and emission of steam from the whole surface were evident to every one. From the summit where we stood, this basin appeared like a funnel, a quarter full, the bank shelv-

A. OSBORNE. Surgeon of H. M. S. Ganges. 20th Agust, 1831.

From the Ariel.

ALICE-THE MINSTREL There are no doubt many—perhaps many who read this—who can remember with distinctness most of the minute incidents that made up the grand total of excitement occa sioned by the last war. Among the novel ties which that stirring period gave birth to was a regiment of ballad singers who frequented the corners of the streets in the erening, singing the many songs which appeared in the newspapers at that timb, all referring to some glorious victory—some In any start is on the highest point of the listand, bearing the name of Lieut. Coleman of H. M. cutter Hind, and from it we had a bird's eye view of the wonderful scene. bird's eye view of the wonderful scene.

In the centre of the Island, torthe eastward of us, was a circular basin, of about ninety feet diameter, of boiling salt water, of a dinger of the content of th gy red colour, from the peroxide of iron in within the compass of a few squares. Each leave with her a roll of notes amounting to a few squares. The active ebullition from the ccuof these little ministrels was sure of an auditen dollars, which they had cheerfully conence; and it was truly remarkable to observe the breathless silence which held the crowd as the song progressed. When it was over, as the song progressed. When it was over, the minstrel held out his hat to his auditors, ing down in the same imaginary proportion.

The wapour here was oppressive to most of to the crown as a reward for his vocal exer-

But among a dozen or two of these, there male among them naturally attracted the largest share of attention. Her name was Al-ice; and her history is not a little singular. sed, the increased satisfaction of the compa-Finding that the street minstrels succeeded ny was audibly expressed. Among them was tolerably well in earning pennies, Alice, an elderly gentleman from the neighbourhood when internal caloric, emitted capiously in apour from the earth, as well as the heat of a scorching sirocco sun, which was extremely fervent this day.

On the S. W. side of the Island, adjoining the principal crater, was a terrific ebullition and sgitation of the scal evidently the commencement of a new crater, with estimate the support of her mother and her little brother, who, to crown their misformace, seemed affected in a remarkable manner. The tears of delight ran down his ribute to the support of her mother and her little brother, who, to crown their misformace, seemed affected in a remarkable manner. The tears of delight ran down his ribute to the support of her mother and her little brother, who, to crown their misformace, seemed and his whole heart seems that the same time miserably contribute to the support of her mother and her little brother, who, to crown their misformace, seemed and his whole heart seems the support of her mother and her little brother, who, to crown their misformace, seemed and his whole heart seems tribute to five mother mother that she deals the support of her mother and her little brother, who, to crown their misformace, seemed delight ran down his received support them, though them only there means the support of her mother and her little brother, who, to crown their misformace, seemed delight ran down his received support, between the support of her mother misformace, seemed delight ran down his ribute to be supported by the manner.
